Evil [darkness] has never been so exposed to light.

They can no longer hide in the shadows.

Our system of government has been infiltrated by corrupt and sinister elements.

Democracy was almost lost forever.

Think HRC install: [2+] Supreme Court Justices, 200+ judges, rogue elements expanded inside DOJ, FBI, CIA, NSA, WH, STATE, (An armada of ship missiles systems, shipping containers fixed with miniaturized nuclear missiles including 2 ships capable of create a Coronal Mass Ejection CME Solar event, the ships had hundreds of missiles and the Cabal>Deep State were able to control all the 3 letter agencies, the White House and the State Department with the threat of these missiles.)

.....removal 2nd amendment, border etc. (This removes the ability of Americans to defend their own country. Joe Biden's border crisis confirms this idea, when the streets are less safe because of higher crime from the open borders, your right to bear arms will become very important. The Democrats just want to keep America less safe with open borders and defunding police. The constitutional right to bear arms helps to keep a balance of power between citizens and government.

An excerpt from my 'How about a nice game of chess?' <https://t.me/littlellemel/7977>

"President Trump built a wall to protect our southern border with Mexico, to stop trafficking of guns, drugs and humans and to stop gangs and terrorists. He had "tough on crime" policies and wanted to take down those international criminal organizations. Attorney General Sessions swore to aggressively support President Trump's plan to take on international criminal organizations, cartels and gangs. The caravans include MS-13, ISIS, terrorists, drug cartel members and traffickers, that come through the borders because of loopholes in laws. MS-13 is based mostly out of

El Salvador, Honduras, Guatemala, and Mexico. Hundreds have been convicted of drugs and murders as well as federal racketeering charges.

President Trump has spent \$5.5 trillion dollars in funding for the southern border wall with Mexico, infrastructure was included in the 2017 Tax Cuts and Reform Act for (FY2019) and the US Army Corp of Engineers built the wall. This was planned in advance using the Constitution and matters of National Security, to bypass any plan for open borders, the elimination of ICE, Border Patrol and defending illegals over Americans. Attorney General Sessions supports the need for a wall as it will create better border reinforcement and deportments will be quicker. As of January 2021, 400 miles of border wall has been built and illegal crossings were down 87%.

President Trump also says that immigration effects our Mexico border security. Chain migrations including terrorists and gangs come in under failed immigration policies. These groups bring violence, murder and human trafficking as well as weapons and drugs into the country. We need a merit-based system where immigrants come into the country legally and close immigration law loopholes. Increase in fair immigration judges and decrease in backlogs will help it run more efficiently as well as supporting applicants that will respect our laws and institutions. President Trump has also mentioned Sanctuary Cities in areas like Denver or Philadelphia that harbor illegal immigrants and limit local law enforcement in cooperating with Federal Immigration officials on matters, essentially omitting Immigration and Customs Enforcement ICE from the process. He also ended Catch and Release which returned Illegal immigrants to their home countries and worked with Mexico to dismantle human smuggling rings.

Legal and illegal immigration will ultimately shift 26 congressional seats by 2022, pulling them away from mostly red states and redistributing them into blue states like California and New York. Red states with Democratic governors have slowly been taking in refugees to their states. Allowing to beef up their budgets as well as distribute immigrants throughout the country more evenly. Alabama, Arkansas, Georgia, Idaho, Indiana, Iowa, Kentucky, Louisiana, Mississippi, Missouri, North Carolina, Oklahoma, South Carolina, Tennessee, Utah, West Virginia, Minnesota, Wisconsin and Rhode Island will all lose one seat. Ohio will lose 3 seats, Michigan and Pennsylvania will lose 2 seats. This shift will put a lot more political power into Democratic hands.

Under President Trump's administration, the Department of Homeland Security DHS blocked 4 million pounds of hard drugs coming in across the southern border with

Mexico in 2017. In FY 2019, US Customs and Border Protection CBP seized 12,466 pounds of opioids and 3,688 pounds of fentanyl. It seized 10kg of heroin and the Department of Justice DOJ dismantled 3000 drug trafficking organizations including major drug indictments of the Chinese, India and Mexico. In 2019, 142,000 pounds of methamphetamine was seized. Since Biden took office the smuggling numbers have dramatically increased as well as the amount of illegal immigrants. Reversal of Trump's policies like Remain in Mexico have caused recent polls to show discontent with the Biden administration.

MS-13 gang members can be hired as hit men. The Mexican Sinaloa Federation Cartel has members working as foot soldiers in the US. One group operates in Los Angeles, CA and St Paul Minnesota. They also have a large presence in New York, Southern California, Washington DC and Northern Virginia and are reportedly in 46 states with around 50,000 members and are also international. MS-13 is considered a Tier 1 level threat in Texas which is the highest threat level. The gang is so dangerous that their motto is "kill, rape, control" and they have made El Salvador the murder capital of the world. Beheadings with machetes are used often by the gangs as well as stabbings and shootings. There is evidence of former military training through their native countries and links to terrorist groups like Al-Qaeda.

Funding for MS-13 comes from Bill & Melinda Gates through their Care foundation, which funds Casa del Migrante and gives the MS-13 and Caravan supplies along the migration route to the US border. George Soros Open Society Foundation is connected through Southern Poverty Law Center SPLC.

In 2021, President Biden canceled border wall construction that used military funds. This includes any overseas projects like schools, partner nation projects and National Guard equipment. The money will now be reverted back to other military projects. Biden felt Trump was misusing the funds by shortchanging our military and security and diverting attention away from human traffickers. However, President Trump built up a very strong and robust military during his administration as well as an excellent record on busting up human trafficking which included an executive order on the issue. All this while Biden is faced with a National Emergency from Governor Doug Ducey of Arizona and a lawsuit from Arizona's Attorney General Mark Brnovich regarding Biden's reversal of Trump's policies at the border creating the border crisis.

In February 2021, President Joe Biden signed 3 Executive Orders EO on reversing President Trump's policies. He ended the "zero tolerance" on prosecuting illegal border crossings and to see unification of children and parents at the border. He also

signed one that reviewed all Trump-era immigration policies. Vice President Kamala Harris was appointed Border Czar by Biden. In September of 2021, Resident Joe Biden's administration's policies created a 17,000+ Haitian immigrant border influx in del Rio Tx, a back log for people waiting to get into the country. This was due to Covid 19 vaccine mandates and relaxed immigration policies.

The Homeland Security Director and Vice President Kamala Harris are advising the media that the border is closed, which is not the case, it is still open and illegal immigrants are flooding in. Border Patrol has been ordered to stand down and allow this. Over 17,000 illegal immigrants were remove from out under the Del Rio bridge and 10-12,000 have been released and will stay in the US. The others are being processed and may be released to stay in the US as well. A deliberate invasion is being orchestrated here. Fox News was prevented from showing drone footage of the immigrant camp under the bridge, which then made Biden look bad, so only then did he allow Border Patrol to stop the flood of immigrants coming in through the Rio Grande. Border Patrol was using men on horseback to disperse the crowds and the horse reigns were mistakenly viewed as horse whips. This caused a social media meltdown, and the Border Patrol agents were removed from duty by Biden, leaving the border even more exposed. Biden continued to use the horse incident to inflame the situation against Border Patrol. BP now faces termination for refusing the Covid-19 vaccine by November at the same time allowing illegals to flow in through the border with no mandate for vaccinations on them, they are not even tested for Covid.

As of Sept 2021, Welcome Us is now coordinating Afghan refugees into the US. George Soros Open Society is funding Welcome Us (WU). Co-Chairs of WU include Globalists Barack Obama, George W Bush, Michelle Obama, Laura Bush, Bill Clinton and Hillary Clinton. Other sponsors include the New York Times, Rockefeller Brothers Fund, Microsoft, the US Chamber of Commerce Foundation and others. We have an overtaxed immigration system as is, but these migrants increase the Democrat voter base and 63% of non-citizens are already on our overburdened welfare system .This may lead to a collapse of the existing government welfare system and allow for a national social system where a redistribution of wealth would support it. Whoever gets elected controls the borders.”)

..... America for sale: China, Russia, Iran, Syria (An excerpt from my post ‘How about a nice game of chess?’ <https://t.me/littlellemel/7977>

“Hillary Clintons server access was given away to American's enemies. Hillary Clinton purposely used outside servers and a Shadow IT Bryan Pagliano and possibly others

who did not have clearances to leak Special Access Programs SAPs information out. Using her personal email also allowed her to avoid and FOIA requests since she wasn't using an official government email. Obama knew about the servers and condoned it. SAPs are the most clandestine activities and are designated above Top Secret and many emails had "born classified" information on them, meaning classified from the start. IG reports showed some emails on the servers were there as early as 2009. The IG report was also modified and redacted by Rod Rosenstein which left out additional classified information. President Trump's attempt to declassify original unredacted report were met with the Cabal > Deep State threat of ship missile systems and could not be released.

When asked to produce the email evidence, Hillary Clinton deleted approximately 30,000 of the 60,000 emails and her servers were wiped clean, showing intent to deceive.

The classified information leaked did irreparable damage to national security since some contained information on the Drone program and also had names of CIA, NSA and other intelligence officers in them. This led to the Tarmac meeting between Former President Bill Clinton and AG Loretta Lynch that I mentioned above, in exchange for Hillary's exoneration, Lynch would get a seat on the Supreme Court. AG Lynch held up her end of the bargain, but Hillary didn't win in 2016 so couldn't fulfill her promise to AG Lynch. The Comey FBI report, altered by Peter Strzok, downplayed the incident from "gross negligence" to "extremely careless", helping to cover up her crimes.

Clinton was also allowing political access for donations to her Clinton Foundation CF, known as "pay for play". CF has also been accused of money laundering in the past. Also, Romanian Marcel-Lehel Lazar aka Guccifer was able to hack into Sidney Blumenthal's AOL account that showed correspondence to Hillary Clinton as early as March 2013.

The State Department was also used for spying for Clinton. According to Wikileaks, diplomatic cables were released in 2010 outlining the spying on foreign diplomats including the UN. This information was also stored on her bathroom server.")

.....ISIS & AL Q expansion (John McCain, Barack Obama, Hillary Clinton, Britain UK, Saudi Arabia and Qatar are responsible for creating ISIS. Saudi Arabian Ministry of Interior documents from 2012 prove they funded and helped create ISIS in the region with assistance from Senator McCain and President Obama. Saudi Arabia was

also funding Israeli Mossad against Iran and Osama bin Laden Al Qaeda. McCain was meeting with ISIS leader Abu Bakr al-Baghdadi in Syria as early as 2013 evidenced by a photograph taken at the time. Clinton secretly had the weapons transferred to ISIS and Al Qaeda from Libya to Syria. The US Ambassador Christopher Stevens from Benghazi was also assisting. Qatar is also funding Rep Ilhan Omar in Michigan and she is also working with US Intelligence connected to the US Congress assessing information for Iran. John McCains, The McCain Institute is funded by elite cabal like George Soros' Open Society Foundation, The Eranda Rothschild Foundation – Sir Evelyn and Lynn Forester de Rothschild and Jacob Wallenberg's-Wallenberg Foundations AB, Hillary Clinton's Clinton Foundation is funded by the Australia through AUSAID, Commonwealth of Australia, Kingdom of Saudi Arabia and The Rockefeller Foundation.)

.....expansion surv (surveillance) of domestic citizens (Social Media and Big Tech are under the control of CCP, CIA/MOSSAD. Lifelog was a project of the Defense Advanced Research Projects Agency (DARPA) of the U.S. Department of Defense (DOD) that captured the flow of one's personal experiences and interactions and makes them accessible using Artificial Intelligence AI. The project was supposedly canceled at the same time that Facebook was created in 2004. DARPA>LifeLog>FB. And Facebook even employed DARPA employees. Factor in other Big Tech involved with DARPA like Google, Twitter and YouTube, all on an Amazon cloud contract and you have the makings of a massive surveillance system. Embed these unremovable programs on Apple and Android devices and the Deep State can capture anything, anywhere. Especially since the inception of the Patriot Act after 9/11 which allowed for this type of massive surveillance. And FISA taught us how much they love to spy and how easily they can do it. Some owners seem to have connections to China, Russia or the Deep State, like Facebook's Mark Zuckerberg's wife is a Chinese national, Googles founder, Russian Sergey Brin was married to 23andme's founder Anne Wojcicki whose sister is Susan Wojcicki the CEO of YouTube. Even when Facebook is being investigated by the SEC for insider trading, the SEC Acting Director of the Division of Enforcement is Melissa Hodgman which is Peter Strzok's wife.

Not only do they spy on everyone, but they also use Big Tech to censor everyone as well. It's also used as a propaganda tool like the CIA/MOSSAD Mainstream Media. These information warfare tools were used to "defeat disinformation", at least their idea of disinformation, in the election and other key topics like news of Hunter Bidens Laptop, that they deem necessary to control. Suppression of legitimate news

sites like Breitbart, New York Post and many others. Use of “Fact Checkers” to support their own narrative at the same time allowing CIA/MOSSAD Mainstream Media the far left news. Legitimate news about the 2020 election results/audits or Covid-19 is severely moderated.

Sites like Facebook and Twitter are used for sex/human trafficking too, while Big Tech claims immunity through Section 230. Twitter was even sued twice by underage victims that were trafficked through its website. Twitter knew about it and refused to remove the material and instead sent a response that the material did not violate any of their policies.

They are allowed to get away with these horrific acts as well as ban citizens of the world including President Trump from free speech due to law loopholes like Section 230 of the Communications Decency Act which claims Big Tech is protected from these actions because they are not publishers. Before leaving office President Trump signed an Executive Order 13925 on Preventing Online Censorship that basically made Big Tech a publisher, he also has filed a major class action lawsuit which allows anyone that has been banned for censorship to join in. However, we still have the threat of the ship missile systems that can delay such actions.)

.....modify/change voter rules and regulations allow illegals+ballot harvesting w/ SC backed liberal-social opinion (Changing the voter rules will allow them to stay in power and in control, this way they can harvest children using their shipping container missiles system.

November 3, 2020 an actual insurrection occurred by the Democrats. Just before the election they changed the rules in their favor to allow mail in voting, which allowed for widespread fraud. Typical voting rules were bypassed because of Covid like ID validation. It also allowed for insecure drop boxes that collected votes, which could be exploited to allow duplicate ballots and past deadline submissions. The Arizona audit already found over 50,000 ballots with irregularities that need further investigation, that is 5 times the amount that Joe Biden supposedly won the state by. And Georgia also completed a 29-page memo on November 3, 2020 voting issues from double ballot scanning to voter privacy violations as well as improper chain of custody documentation and mishandling of ballots from drop boxes.

An excerpt from my post ‘How about a nice game of chess?’

<https://t.me/littllemel/7977>

Mike Lindell has provided tons of documented evidence of Voter Fraud starting in Maricopa County AZ, in a Documentary called 'Absolute Proof' and presented it multiple times for the American public. Tampered with Dominion voting machines, cyber intrusions mostly from China on election night, phony paper ballots, dead voters and voter intimidation just to name a few. Dominion and Smartmatic machines have connections to George Soros.

September 25, 2021, the Maricopa County 2020 Election audit results were released, the audit included 1500 volunteers. Over 2.1 million ballots were hand processed, 200,000 were sent to adjudication and over 57,000 ballots may be legally in question which is more the 5x the amount the Biden supposedly won by which was 10,457. Karen Fann, the Arizona Senate president claims the audit received unnecessary obstruction from Maricopa County by going to court and the use of subpoenas. The audit uncovered significant evidence of broken statutes and personnel not following chain of custody. Election systems, record keeping, signature verification match and voter roll issues need improvement and investigation. Because Maricopa County officials refused to cooperate it was impossible to complete the audit.

It was led by Cyber Ninjas Doug Logan and Ben Cotton as well as an independent team including assistance from Dr Shiva Ayyadurai for audit analysis, Randy Pullen and Ken Bennet presented election laws. Senator Peterson identified critical issues encountered while obtaining the audit including audit obstruction, the numbers don't add up, "It appears they broke the law with duplicate ballots", people need to be held accountable for mistakes, chain of custody issues, data files were not preserved, weakness in Cyber Security and missing signatures on envelopes. The routers, Splunk data and Netflow data were never given to the auditors for review, this would have shown internet traffic which was not allowed. The actual recount in the audit showed Joe Biden won by 994 votes but also showed a multitude of evidence that fraud was committed.

Mail in ballot issues:

Mail-in Ballots Voted from Prior Address 23,344; More Ballots Returned by Voter Than Received 9,041; Potential Voters that Voted in Multiple Counties 5295; Official Results Does Not Match Who Voted 3,432; More Duplicates Than Original Ballots 2,592; In-Person Voters Who Had Moved out of Maricopa County 2,382; Voters Moved Out-of-State During 29-Day Period Proceeding Election 2,081

Maricopa had originally refused to do a canvass, which would show the number of votes cast should not exceed the number of voters. The ballot delta is currently 11,592. A Canvass was run by citizens and led by Liz Harris during the audit instead. On its Canvass report, Maricopa had not counted any duplicate ballots. Another Canvass could validate findings even further as well as an investigation by the Attorney General. As of Sep 26, 2021, 41 legislators from various states wrote a letters calling on a 50-state audit.

There were 29,557 duplicate ballots and 26, 965 were sent for duplication, leaving 2,592 more duplicate ballots counted then sent. When attempting to resolve discrepancies the audit team was met with resistance by Maricopa County. Unidentified and misidentified ballot batches were supplied which draws questions to signature verification verifiability. Dr Shiva found 17,322 duplicates in which some cast 3- and 4-times mail in ballot signatures, 25% were received after the election.

Other ballot anomalies:

Received without Record of Being Sent 397; Voters with Incomplete Names 393; Deceased Voters 282; Late Registered Voters with Counted Votes 198; Double Scanned & Counted Ballots 50; UOCAVA

The audit results show that over 1 million files were missing, and 284,412 ballot images corrupt from the Election Management Server EMS and logs were cleared. Maricopa County disputed that this happened. There were statutes being broken and chain of custody issues regarding ballots and they were not always delineated, or they had missing serial numbers, these will all need to be investigated. Computer and cyber security protocols were not followed like patch and credential management, best practices by Cyber & Infrastructure Security Agency CISA were ignored as well. Counties should always be able to be in control of their administrator passwords for voting machines to maintain monitoring and integrity. Fake paper was used in 100% of the ballots instead of VoteSecure stock when asked to research paper, ink, toner and ballot formats further, Maricopa County blocked the request.

74,243 more ballots were received then sent out, 11,326 didn't show up on election but did show up on Dec 4, 2020. 3981 voted but registered after Oct 15, which would disqualify them from voting in 2020 election. An estimate of 57,000 votes with improper voter discrepancies voter registration were found. This type of fraud could invalidate the election and should be criminally investigated. Also, a Kinematic

Artifact processing is checking the ballot images and will fully map all printer miscalculations and have a report available shortly.

Additional audit tallies:

Votes Counted in Excess of Voters Who Voted 1551; Voters not part of the Official Precinct Register 618; Ballots Returned Not in the Final Voted File 430; Duplicated Ballots Incorrect & Missing Serial Numbers 500; Mail-In Ballot Audit UOCAVA Count Does Not Match the EAC Count 226; Date of Registration Changes to Earlier Date 194; Duplicate Voter IDs 186; Multiple Voters Linked by AFFSEQ 101; UOCAVA Electronic Ballots Double Counted 6; Duplicate Ballots Reuse Serial Numbers 6; Individuals voted in more than one county 5,047, for up to 5,295 additional votes; Voters cast ballots using incomplete names 393; Individuals who registered after the Oct. 15 deadline voted anyway 198; Voters shared a registration number with another voter 2,861; Votes appeared to be cast in the names of dead voters 282; Voters appeared to have duplicate voter IDs, both of which were presented at separate times 186.

The Democrats have a history of cheating in elections. A Philadelphia Judge of Elections, Domenik DeMuro, was caught adding votes for Democrats in the 39th Ward in 2014, 2015 and 2016.

In Troy New York, Former Democratic City Clerk William McNerney, Democratic Councilman John Brown, and Democratic political operatives Anthony Renna and Anthony DeFiglio were caught forging signatures on absentee ballots for the Working Families Party Primary in 2009, all four plead guilty.

In 2016 Project Veritas uncovered that the New York City Democrat election commissioner Alan Schulkin admitted on film “there is a lot of voter fraud”. Democrat Operative Scott Foval admitted they “bus people in”, using fake shell companies, out of state voters are hired just to vote and then paid off through the shell companies.

House Resolution 1 HR-1 transfers authority in how elections are run from the State to the Federal Government. It mandates voter registration for anyone registered at the Department of Motor Vehicles, Public Universities or any social service agency. It also mandates that States comply with these new laws regardless of their state laws. It allows for early voting and for states to accept any mail in ballot postmarked before/on election day, up to 10 days which can be delayed allowing elections to remain unknown.

It forces states to redraw congressional district lines to show “racial, ethnic, economic and gender” diversity. It removes any requirements for Voter ID and allows illegal immigrants and felons to vote and allows for ballot harvesting. It limits the ability for lawsuits against HR-1 and recommends statehood for the District of Columbia. It limits free speech against the law and considers it “misleading information”, penalties could be up to 5 years in prison.

It is illegal in the United States for non-citizens to vote in elections, regardless some jurisdictions still allow immigrants to vote. Immigrants are also counted when remapping congressional districts which allows for more electors. These things apply even if they have broken the law. 6.4% of Immigrants voted in the 2008 presidential election according to a 2014 study. The majority of Americans are against non-citizen voting. Voter ID requirements demonstrate identity and citizenship greatly reduce voter fraud.

.....sell off of military to highest bidder to fight internal long-standing wars.....(Leaked intel was received by China via Hillary Clinton’s private bathroom server. Clinton used a personal email and computer to conduct official government business which goes against government policy. It was set up with limited security hardening which made it vulnerable to intrusion and theft as early as March 2013. She used non-government IT staff to maintain it as well which also goes against government policy. Germany and South Korea also had access to the server. Pakistani nationals, the Awans also had access to the DNC servers since 2004 through 2016. The servers collected congressional information and stored on servers in Pakistan.

Budget Sequestration during the Obama administration seriously crippled the US Military according to publicized statistics by the House Armed Services Committee published on March 22, 2018. The Air Force was short 2000 pilots, barracks were “mold-ridden”, the average age of Air Force planes was over 27 years old, condemned hangers and contaminated water were just a few of the issues the military faced. During the Obama administration, the “don’t ask don’t tell” policy was repealed, transgenders were allowed in and women in combat was pushed. This created weakened commands in the US Military. A military report called The Marine found that units were less lethal, slower and more injury prone when transgenders were allowed. Females in combat cause a weakened state as well because men may be

picking up the slack and foreign fighters are indifferent to women in combat, so more women die as a result. The possibility of shared bunks between genders increases which would cause more issues for commanders. Overall, the policies created a less capable fighting force.

Joe Biden's disgraced withdrawal from Afghanistan in August of 2021, is also a clear sign that the Democrats have and will continue to weaken our military. He surrendered the war to the Taliban as well as gave them \$85B in military equipment including vehicles, planes, helicopters, small arms and various combat equipment. He refused to apologize and a week later ended up killing 10 civilians including 7 children in a drone strike meant for ISIS-K which was a retaliation for killing 13 US service members and 168 Afghans and Biden also left American citizens and Afghan allies behind.

It has also invited unwanted aggressions from China and put pressure on Taiwan. In Oct of 2021 tensions between China and Taiwan are the worst in 40 years. Joe Biden continues to side with China and their "One China" policy, which declares Taiwan will once again be part of China in the future whereas Taiwan considers itself sovereign. No shots have been fired but China has increase aircraft in the area by 150, a move with Taiwan considers, hostile. Most allied countries in the area are urging both countries to talk to find a resolution but China continues to be aggressive with its military presence in the area.

US special operations are training small ground forces in Taiwan and have been for at least a year, indicating President Trump may have set that up. The Marines have also been collaborating with maritime forces for small boat training. The training may also reflect the Pentagons concern that Taiwan is not ready for a Chinese invasion.
